ABOUT

Who we are.

ServerBD Technology is a Bangladesh-based provider of web hosting, domain registration, business email and cloud infrastructure solutions. We support businesses of all sizes – from startups to growing enterprises – with reliable, locally optimised services.

Our infrastructure combines high-performance SSD storage, modern web-server technologies and locally optimised network routing to deliver fast, stable performance. We focus on simplicity, reliability and responsive customer support – delivered in both Bengali and English.

MISSION

To provide reliable, secure and affordable digital infrastructure solutions tailored for businesses in Bangladesh.

VISION

To become a trusted regional leader in hosting and cloud services through consistent performance and customer satisfaction.

CAPABILITIES

What we do.

We provide a focused portfolio of digital infrastructure services. Each is delivered on the same reliable platform and supported by the same team.

Web Hosting

- Shared Hosting
- WordPress Hosting
- Reseller Hosting
- VPS & Dedicated Servers

Domain Services

- Domain Registration & Transfer
- Local (.bd) Domain Management
- Bulk Domain Tools
- Free DNS Management

Business Email

- Google Workspace
- Microsoft 365
- Custom Email Hosting
- Anti-Spam & Security

Cloud & Solutions

- SSL Certificates
- RDP Servers
- Web Development
- Software & E-commerce

Why clients choose us.

We focus on the things that matter most when running a business online: a stable platform, fast performance, and people who pick up the phone.

Local presence

Bangladesh-based team, Bengali and English support, billing in BDT.

Engineered for performance

SSD storage, modern web stacks (LiteSpeed / Nginx) and tuned routing.

Transparent pricing

Clear tiers, no hidden fees, easy upgrades as you grow.

Responsive support

Multi-channel support with same-team escalation — no tier hand-offs.

Security first

Free SSL, automated backups and proactive abuse monitoring.

Operational maturity

Years of experience hosting business-critical workloads.

Web hosting.

All hosting plans are redesigned for performance, security and scalability, with flexible options for individuals, businesses and agencies.

Shared Hosting

Best for personal sites, small businesses and portfolios.

- cPanel control panel
- Free SSL & daily backups
- Easy 1-click app installer
- Email & DNS included

WordPress

Tuned for WordPress speed, security and updates.

- LiteSpeed + LSCache
- Auto WP core updates
- Staging environment
- Malware scanning

MOST POPULAR

Reseller Hosting

White-label hosting for agencies and developers.

- WHM access
- Unlimited cPanel accounts
- Custom branding
- Per-client resource limits

VPS & Dedicated

Isolated resources for high-traffic and custom workloads.

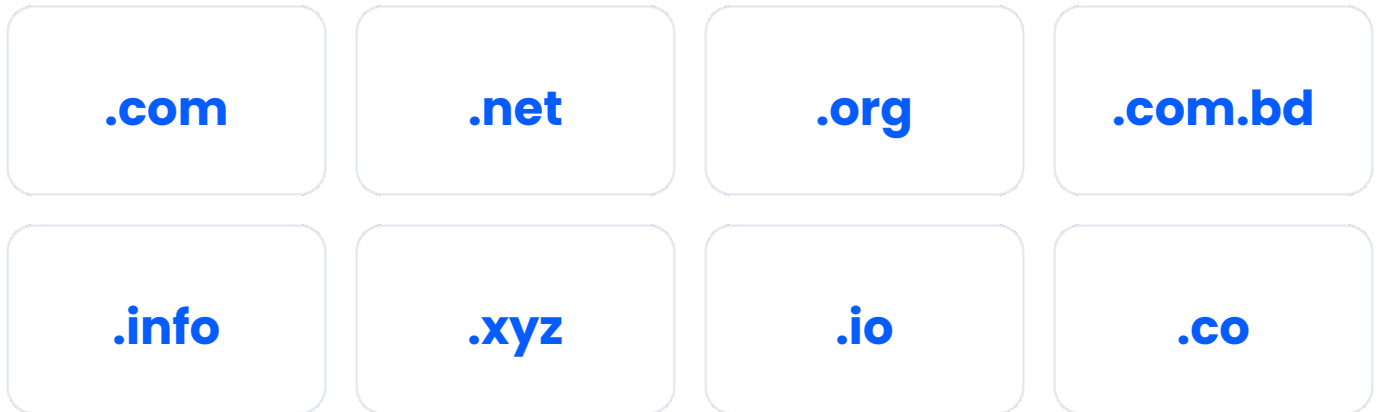

- Root access
- NVMe-class storage
- Snapshots & rebuild
- Managed option available

Current pricing and feature details are published on serverbd.net.

Domain registration.

Register, transfer and manage local and international domains from a single dashboard. Bulk pricing available for agencies.

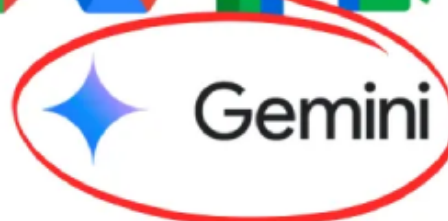

And many more TLDs available on request.

- Free WHOIS privacy on supported TLDs
- Free DNS management & email forwarding
- Bulk search and bulk transfer tools
- Auto-renew & expiry reminders

Live pricing for every TLD is available on serverbd.net.

Google Workspace

Business email.

Run your business on a professional email address backed by world-class providers. We handle setup, MX records and migration.

Google Workspace

Business-grade Gmail, Calendar, Meet and Drive on your own domain.

- Custom @yourdomain email
- Drive storage & shared drives
- Meet video conferencing
- Admin console & policies

Microsoft 365

Outlook, Teams and Office apps on your own domain.

- Outlook + Exchange
- Teams collaboration
- OneDrive & SharePoint
- Desktop Office apps (selected plans)

ServerBD Email Hosting

Affordable, locally hosted email with anti-spam protection.

- Webmail & IMAP/POP
- Anti-spam & anti-virus
- Per-mailbox quotas
- Bengali support

PLATFORM

Infrastructure & security.

Our platform is built on enterprise hardware in Tier-grade datacenters, with redundant networking and proactive monitoring.

Infrastructure

- Enterprise-grade SSD / NVMe storage
- Modern web stacks: LiteSpeed, Nginx, Apache
- Redundant network with multi-route uplinks
- Locally optimised routing for Bangladesh
- Dedicated firewalls & DDoS mitigation
- Industry-standard 99.9% uptime target (SLA)

Security & Compliance

- Free SSL on every hosting plan
- Automated daily backups & restore
- Server-level firewall (CSF / mod_security)
- Two-factor authentication on accounts
- Brute-force & malware scanning
- Privacy-respecting data handling
